About This Game

“Endless World” is a 3D idle casual ARPG. Explore an endless world and become stronger with every battle. Collect rare equipment and recruit over 40 legendary heroes to help you in your adventure. In the end, every defeats you have will only make you stronger.

Key Features

Summon Heroes

In the Endless World, you are not fighting alone. Bosses defeated during your adventure are likely to be recruited as your mercenaries. They can provide incredible power and enrich the battle strategy. Each of them have very different skills and fighting methods. Every player will create their most preferred team through repeat trials in battles! Recruit over 20 heroes with various abilities to help you in your quest. However, their spirit fragments had been scattered across the world. Explore the endless world and collect all of their spirit fragments to summon them to your side!

Skills & Talent

Fighting is always the core theme. Although you don't need to move your characters with controls, the battle system is not as simple as it seems! Unlock and upgrade your skills to advance faster! Pick a talent to be upgraded with specific property based on your playstyle. Upgrade your skills to power up your "Werewolf" form to unleash devastating attacks!

Explore Different areas

Travel across different areas and beat all those powerful evil creatures! Ancient wyrms perch at the bottom of volcanoes; Spirits sleep on the Mountain of Eternal Snow; Abyss lords dominate the deepest, darkest pits; Ogres feed in the Illusion Forest; Demons hide in the depths of Cemetery of Saints. Each area is not only filled with deadly monsters and beasts, but also fantastic treasures to be found for your hero.

SOLVE THE MYSTERIOUS CASE IN THE CITY OF CRIME!:

Follow the game or add it to your wishlist to stay updated!. **New map: Coldsnap!:**

New map! Bring gloves and hot chocolate!. The Princess Adventure **Update Notes 1.36:**

- Correction of some bugs.

Attention:

I momentarily deactivated the achievements, because the module that releases with the Steam API (third-party module) is not working properly, and it is the one that is causing the problem to start in Windows 10, forcing the game to close.

As soon as I decide to launch a new update releasing the achievements.. **New Story Trailer!:**

Hello Miners!. Miss Lisette's Assassin Maid by Hasoyua!:

Hello everyone!

We're excited to announce that we will be working with Hasoyua to bring you Miss Lisette's Assassin Maid!

https://store.steampowered.com/app/1071490/Miss_Lisettes_Assassin_Maid/

After being classified as a demon by the church, Lisette Blanchar is abducted by a mysterious group of thieves. Believing the abduction was a ploy to hide Lisette, the church executes the head of the Blanchar family. In response, the family's maid, Forty,

a retired assassin, once again takes up her blade in order to rescue Lisette, and prove her innocence.

This is our second game from Hasoyua and if you haven't played Seed of Evil yet, please give it a try!
